Nature is amazing and fun.

Mercury

Venus

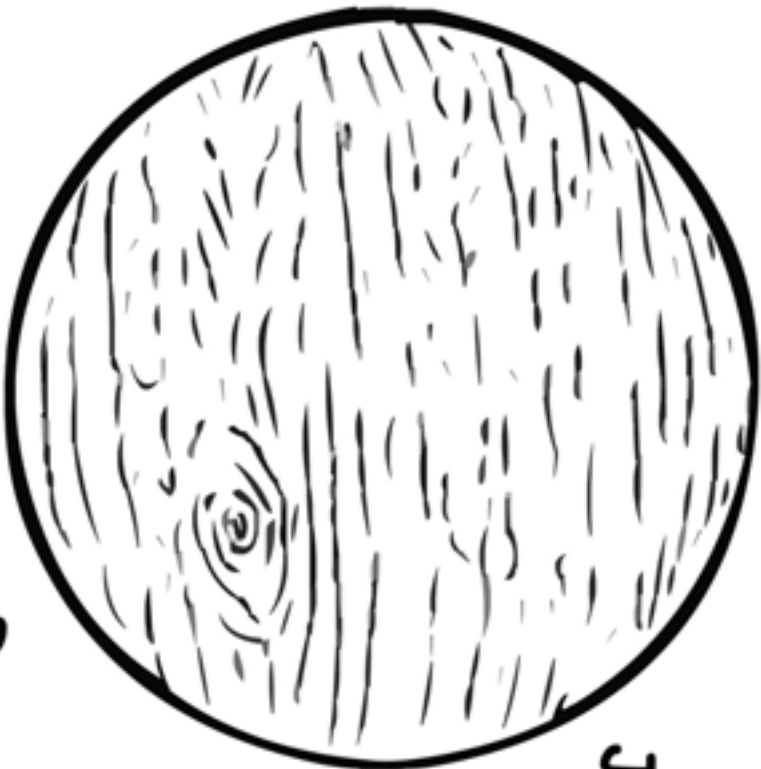

Earth

Mars

Jupiter

Uranus

Neptune

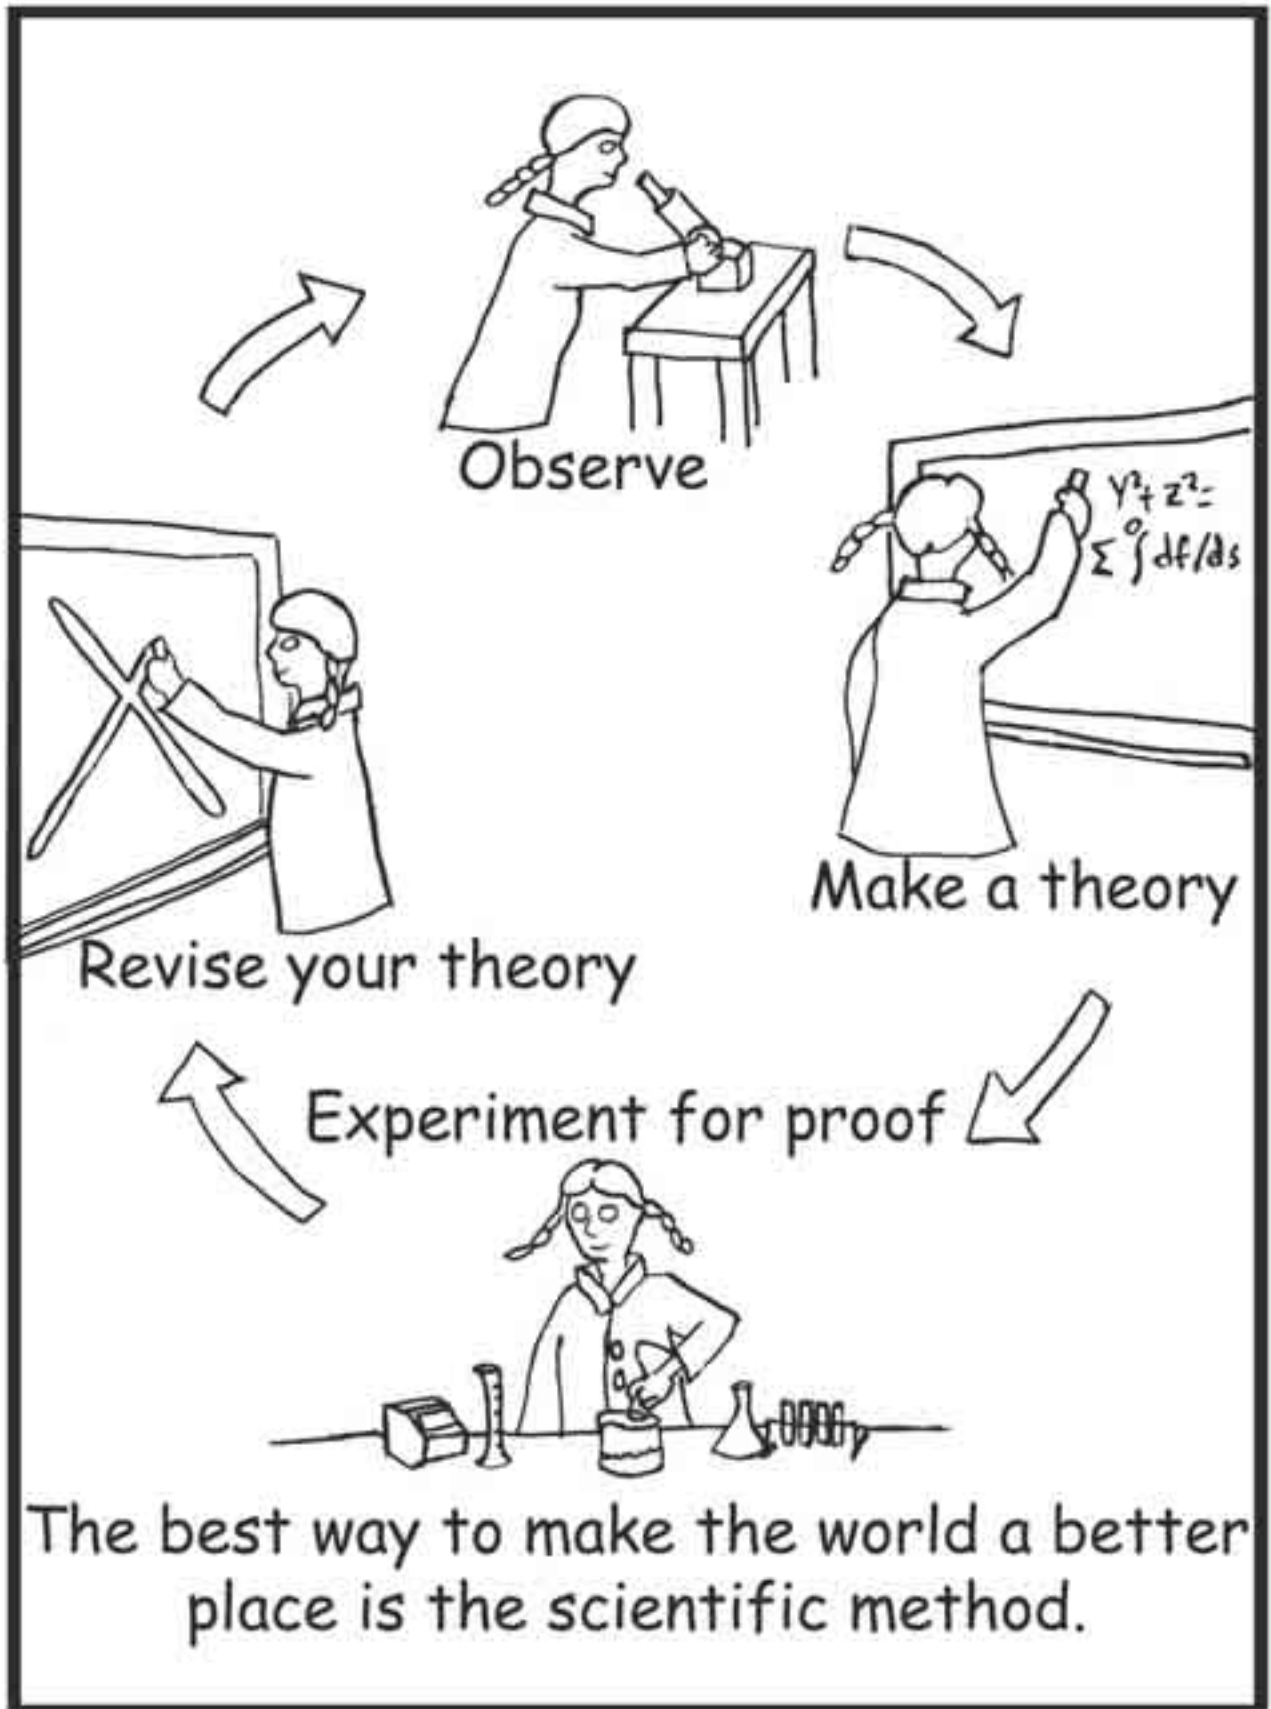

Saturn

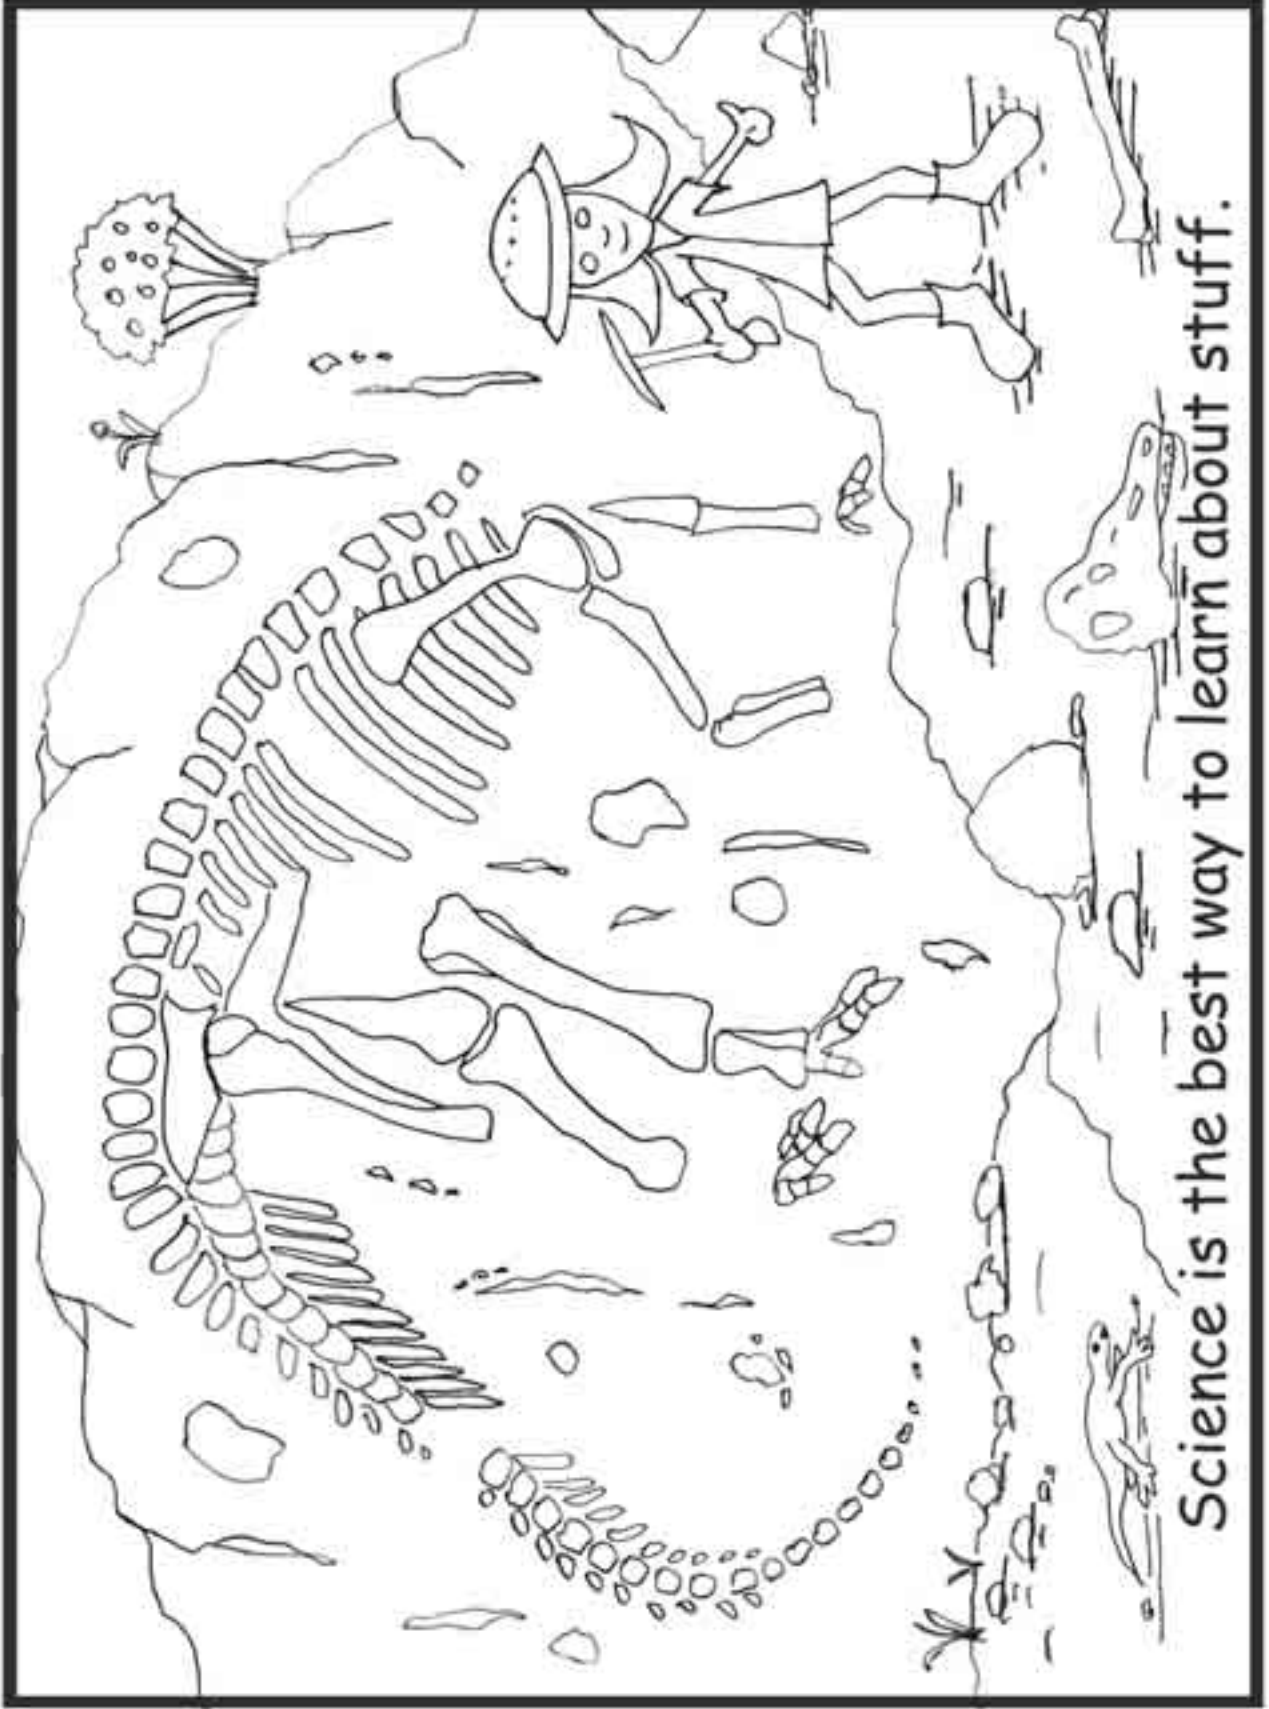

Pluto

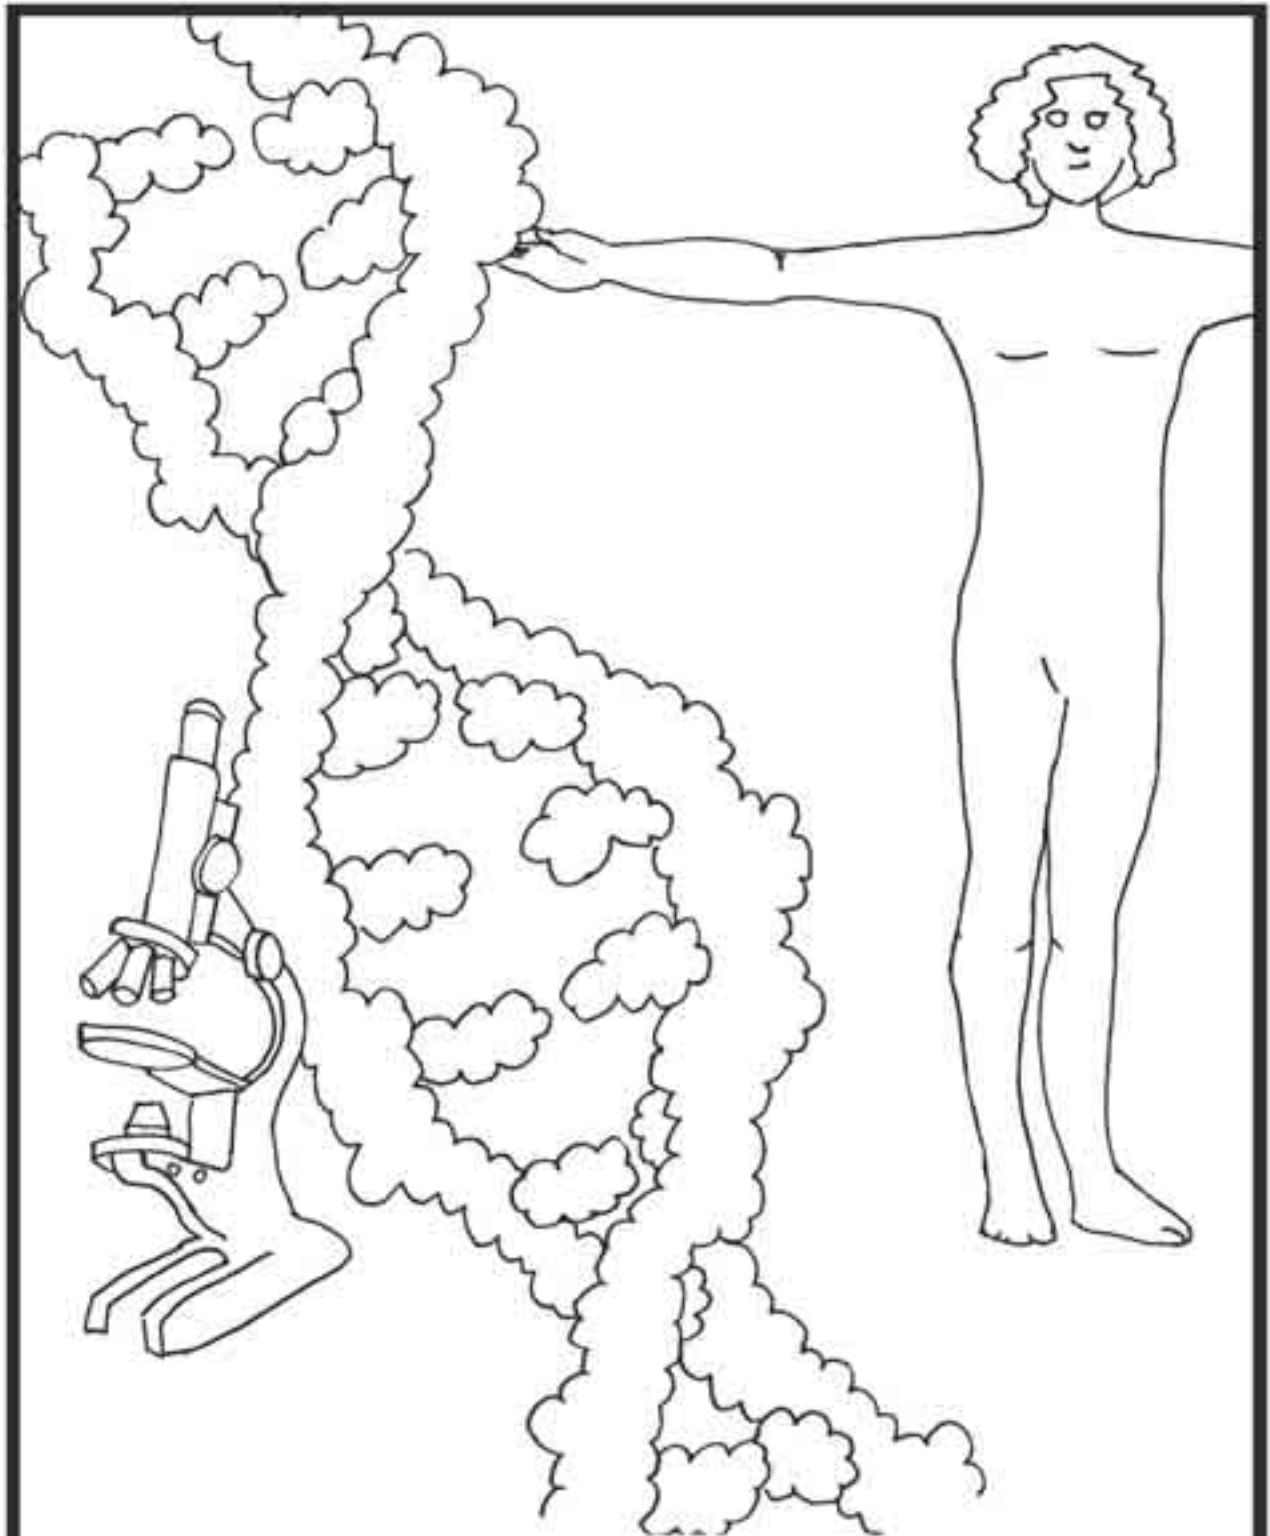

The Universe is full of cool stuff to explore.

The best way to make the world a better place is the scientific method.

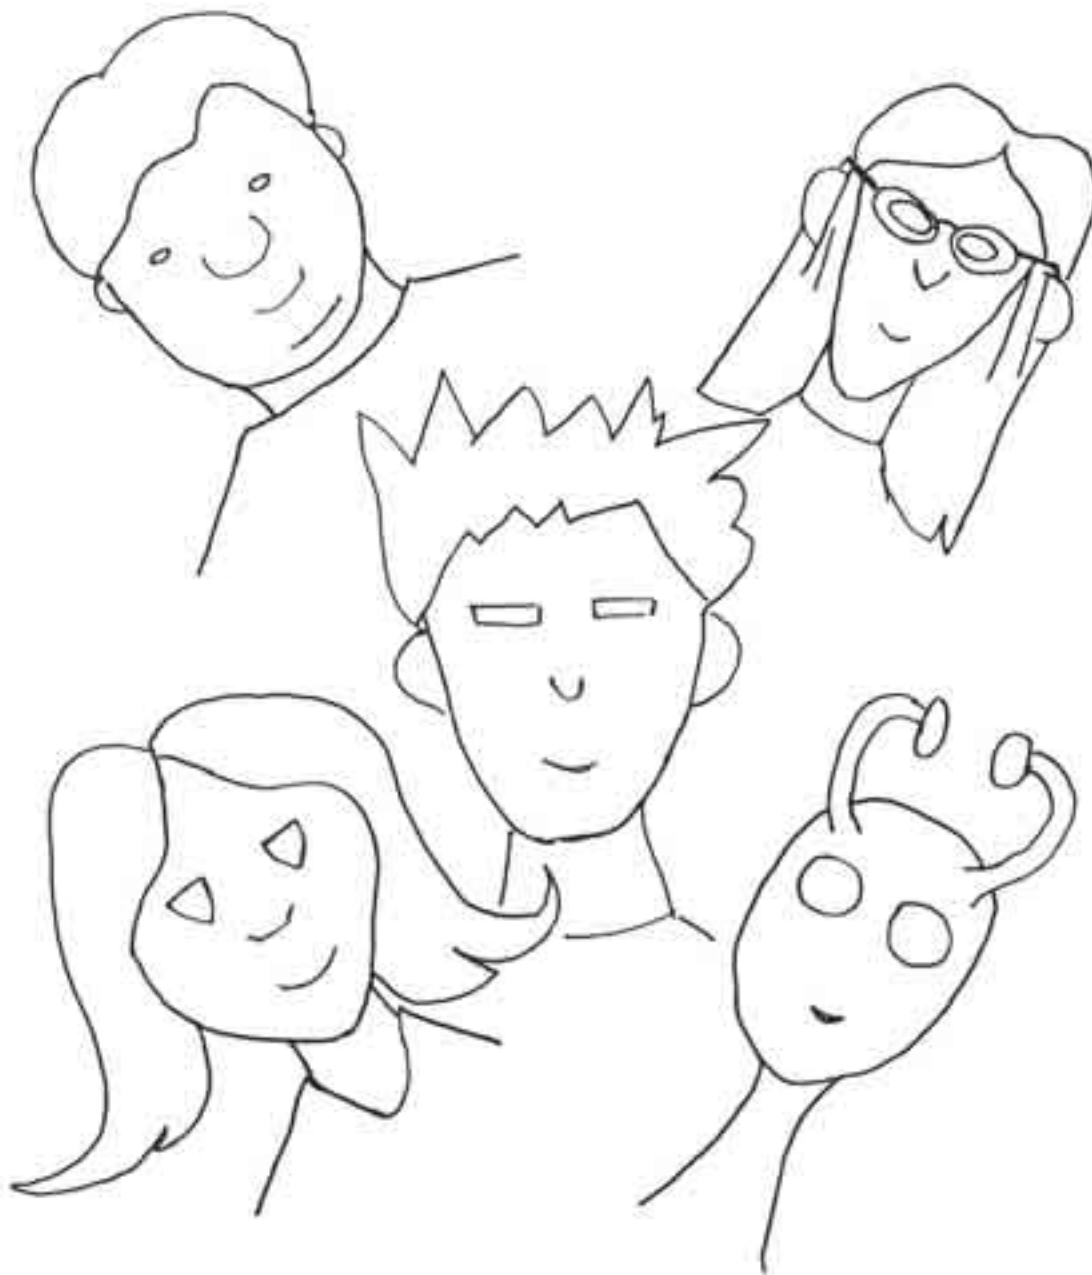

Science is the best way to learn about stuff.

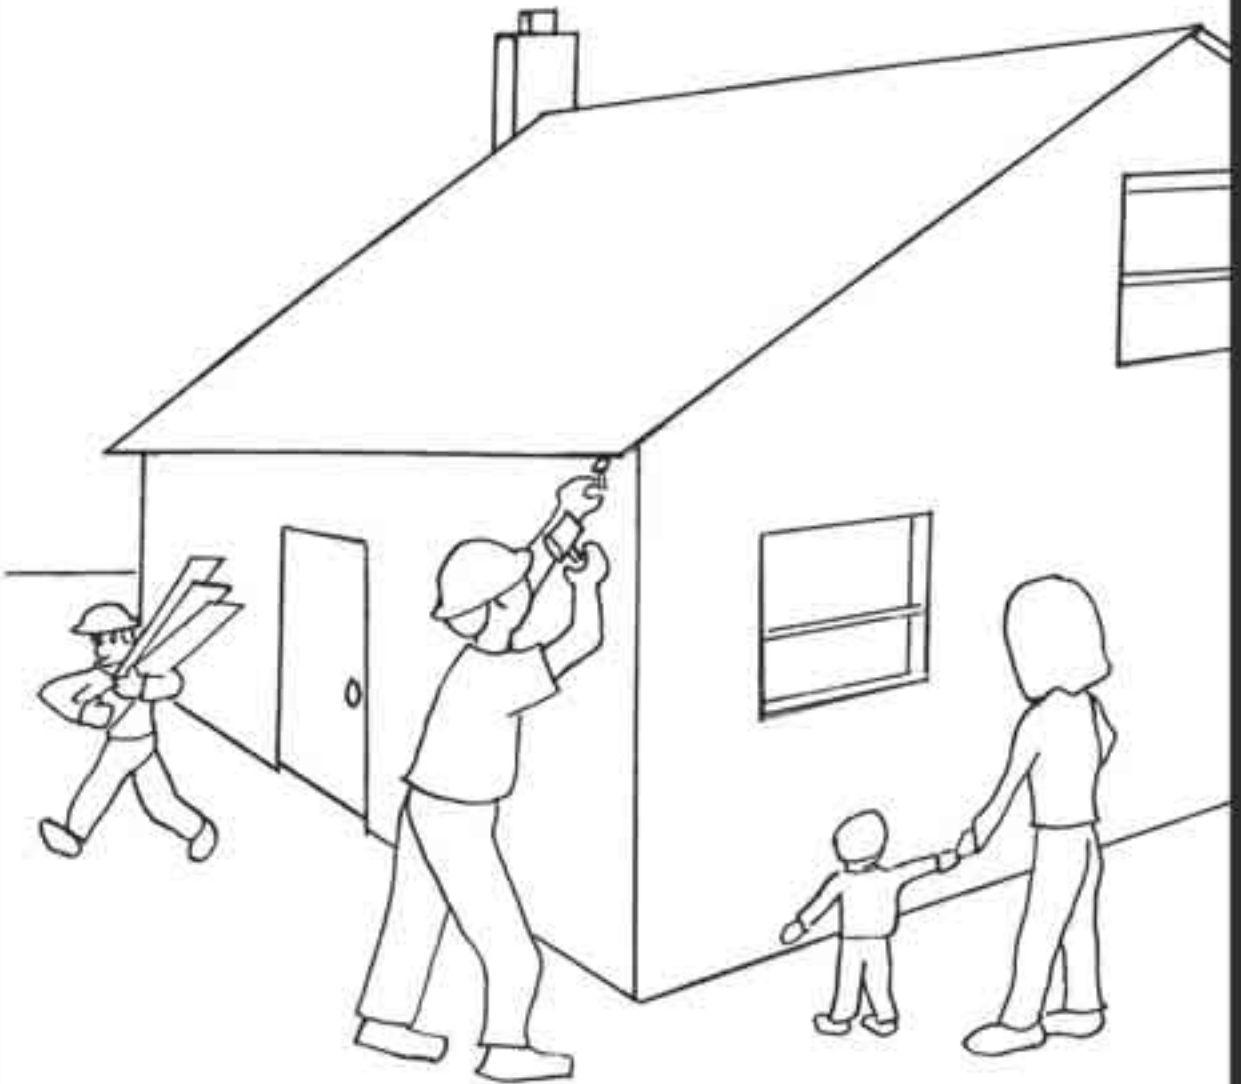

Important things, like DNA, can only be known through science.

Use the Scientific Method.

Be fair to every one, especially those
different from you.

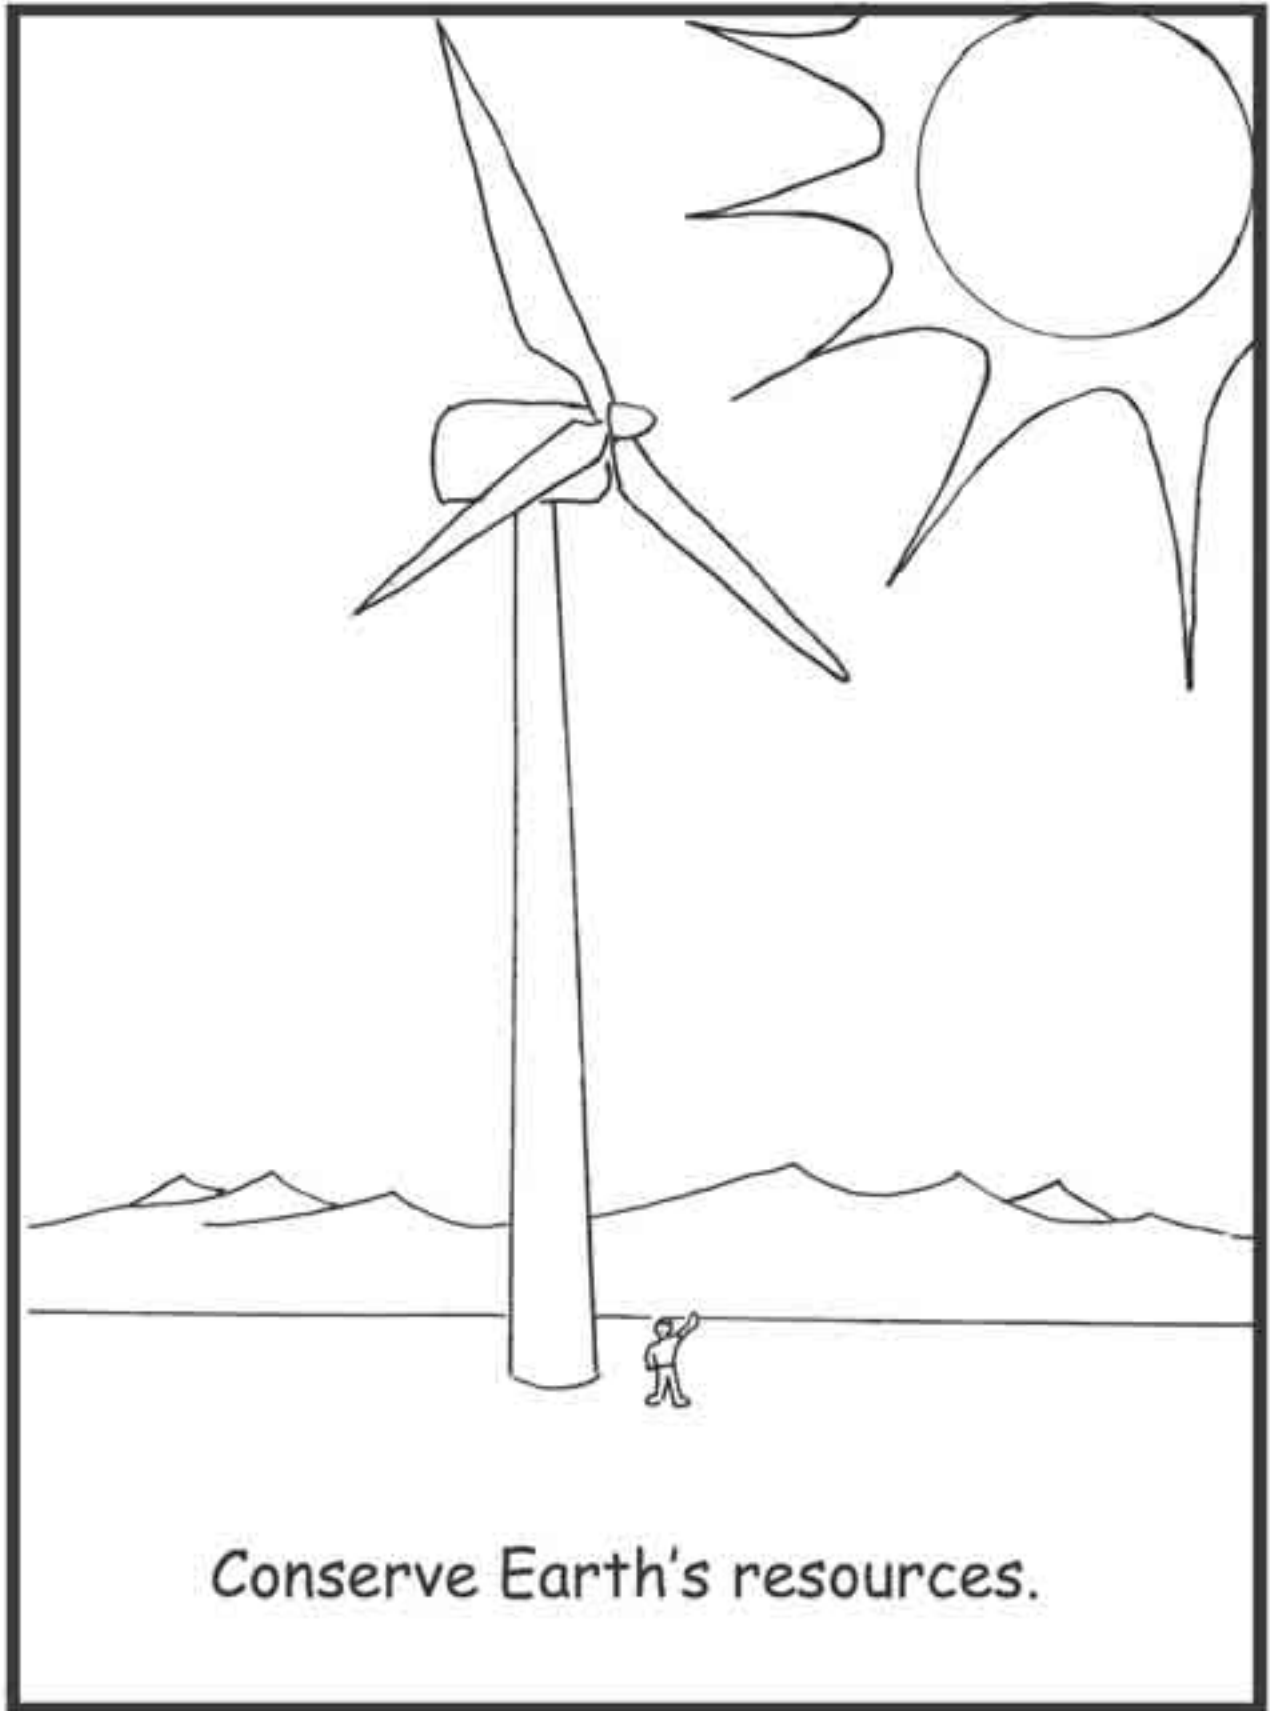

Help make the world a better place.

Be kind to our animal friends.

Protect the Earth, our home.

Conserve Earth's resources.

Meditation...
is good for your health and
concentration.

Just sit
and relax.

Close your eyes
and listen to your
breathing.

After a few
minutes you
will feel better.

THEORY

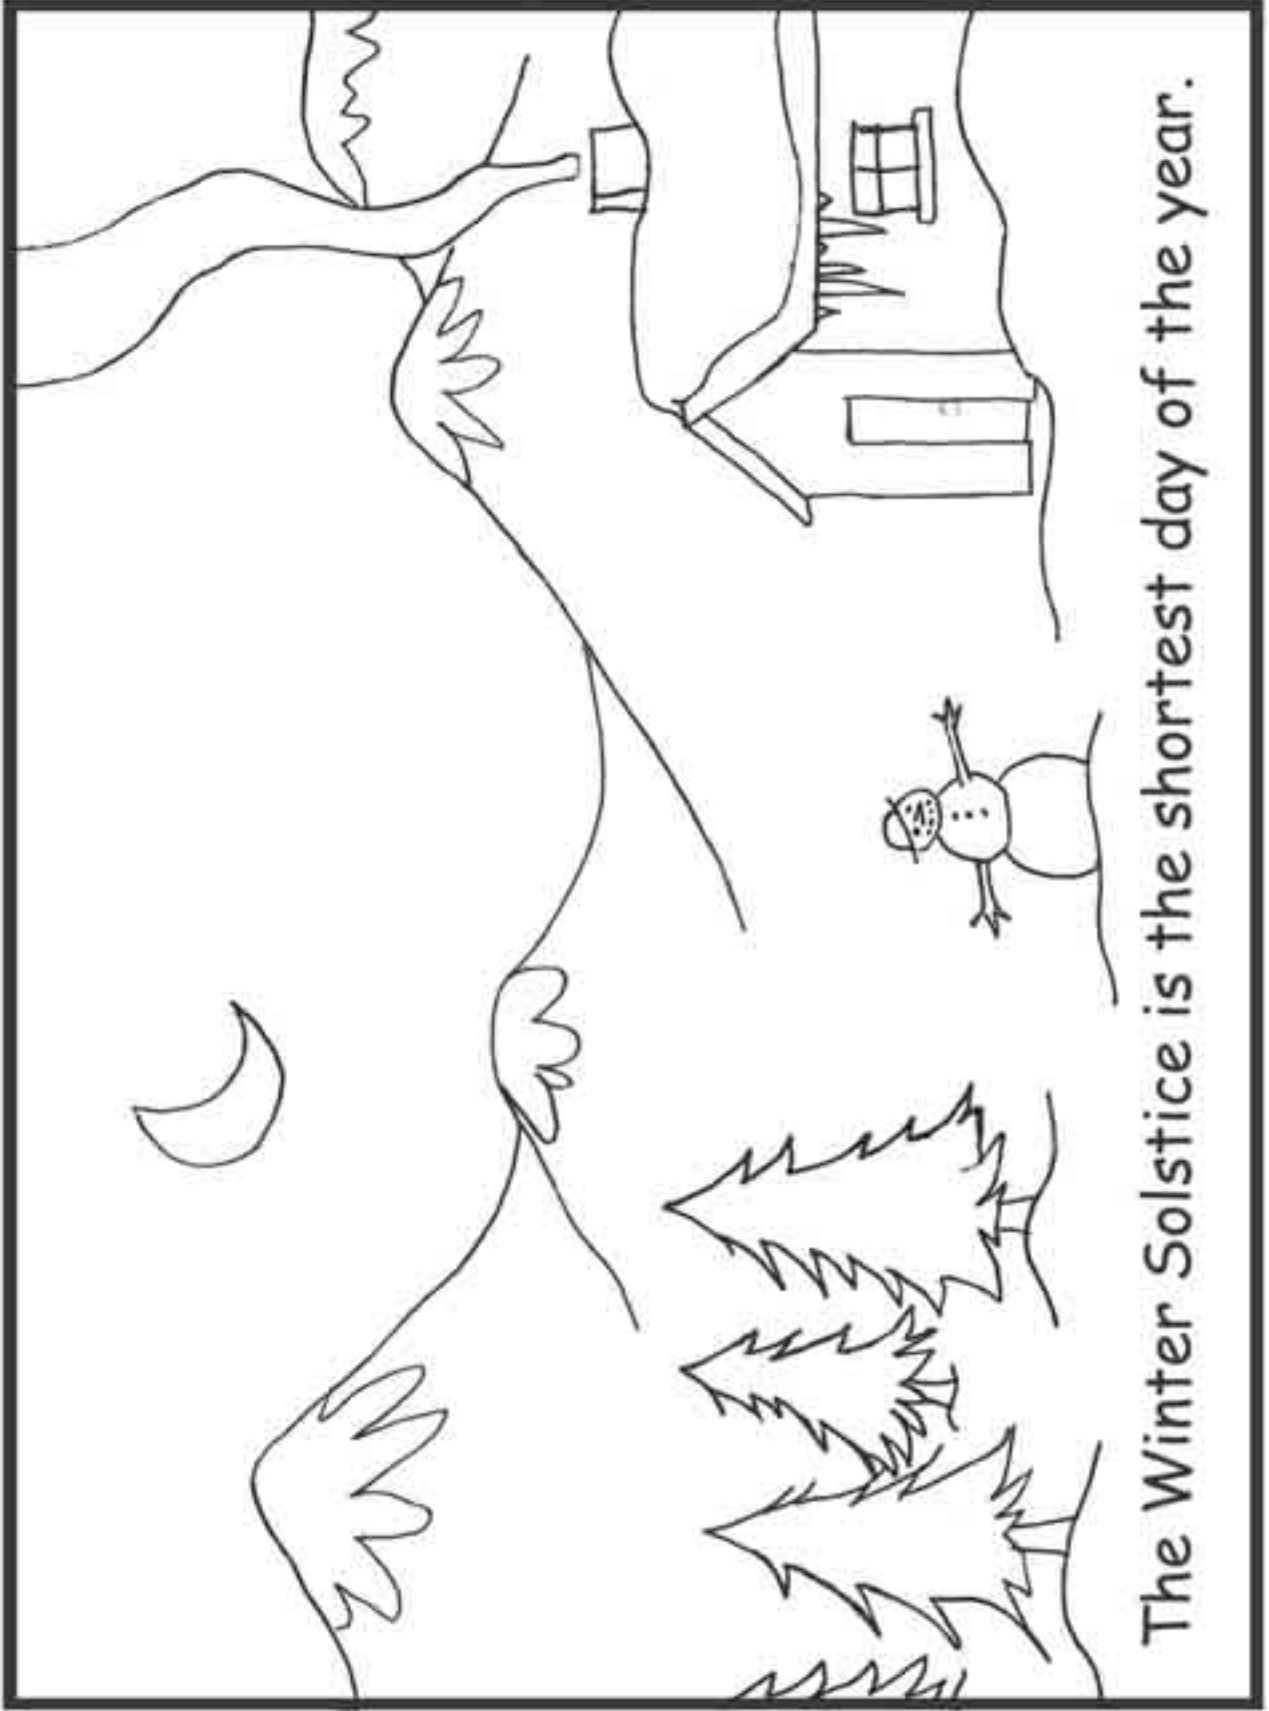

The Earth orbits the sun.

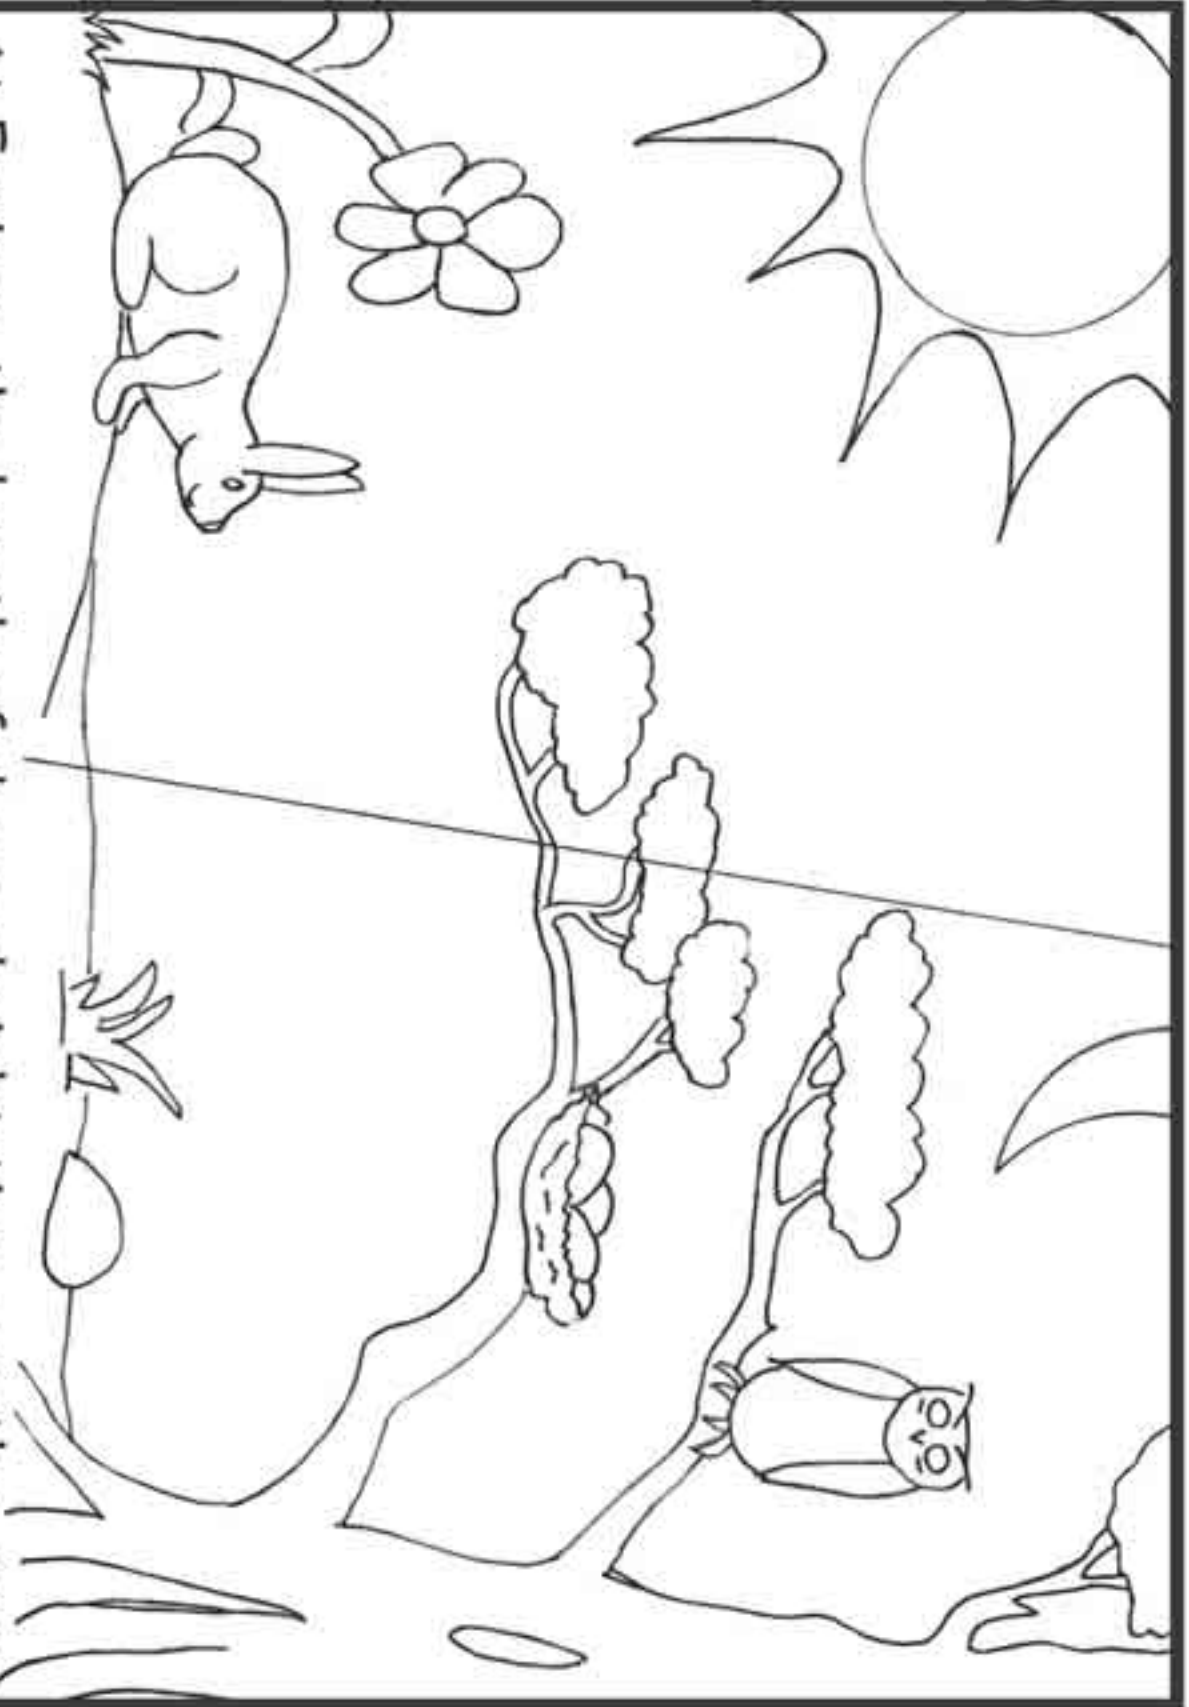

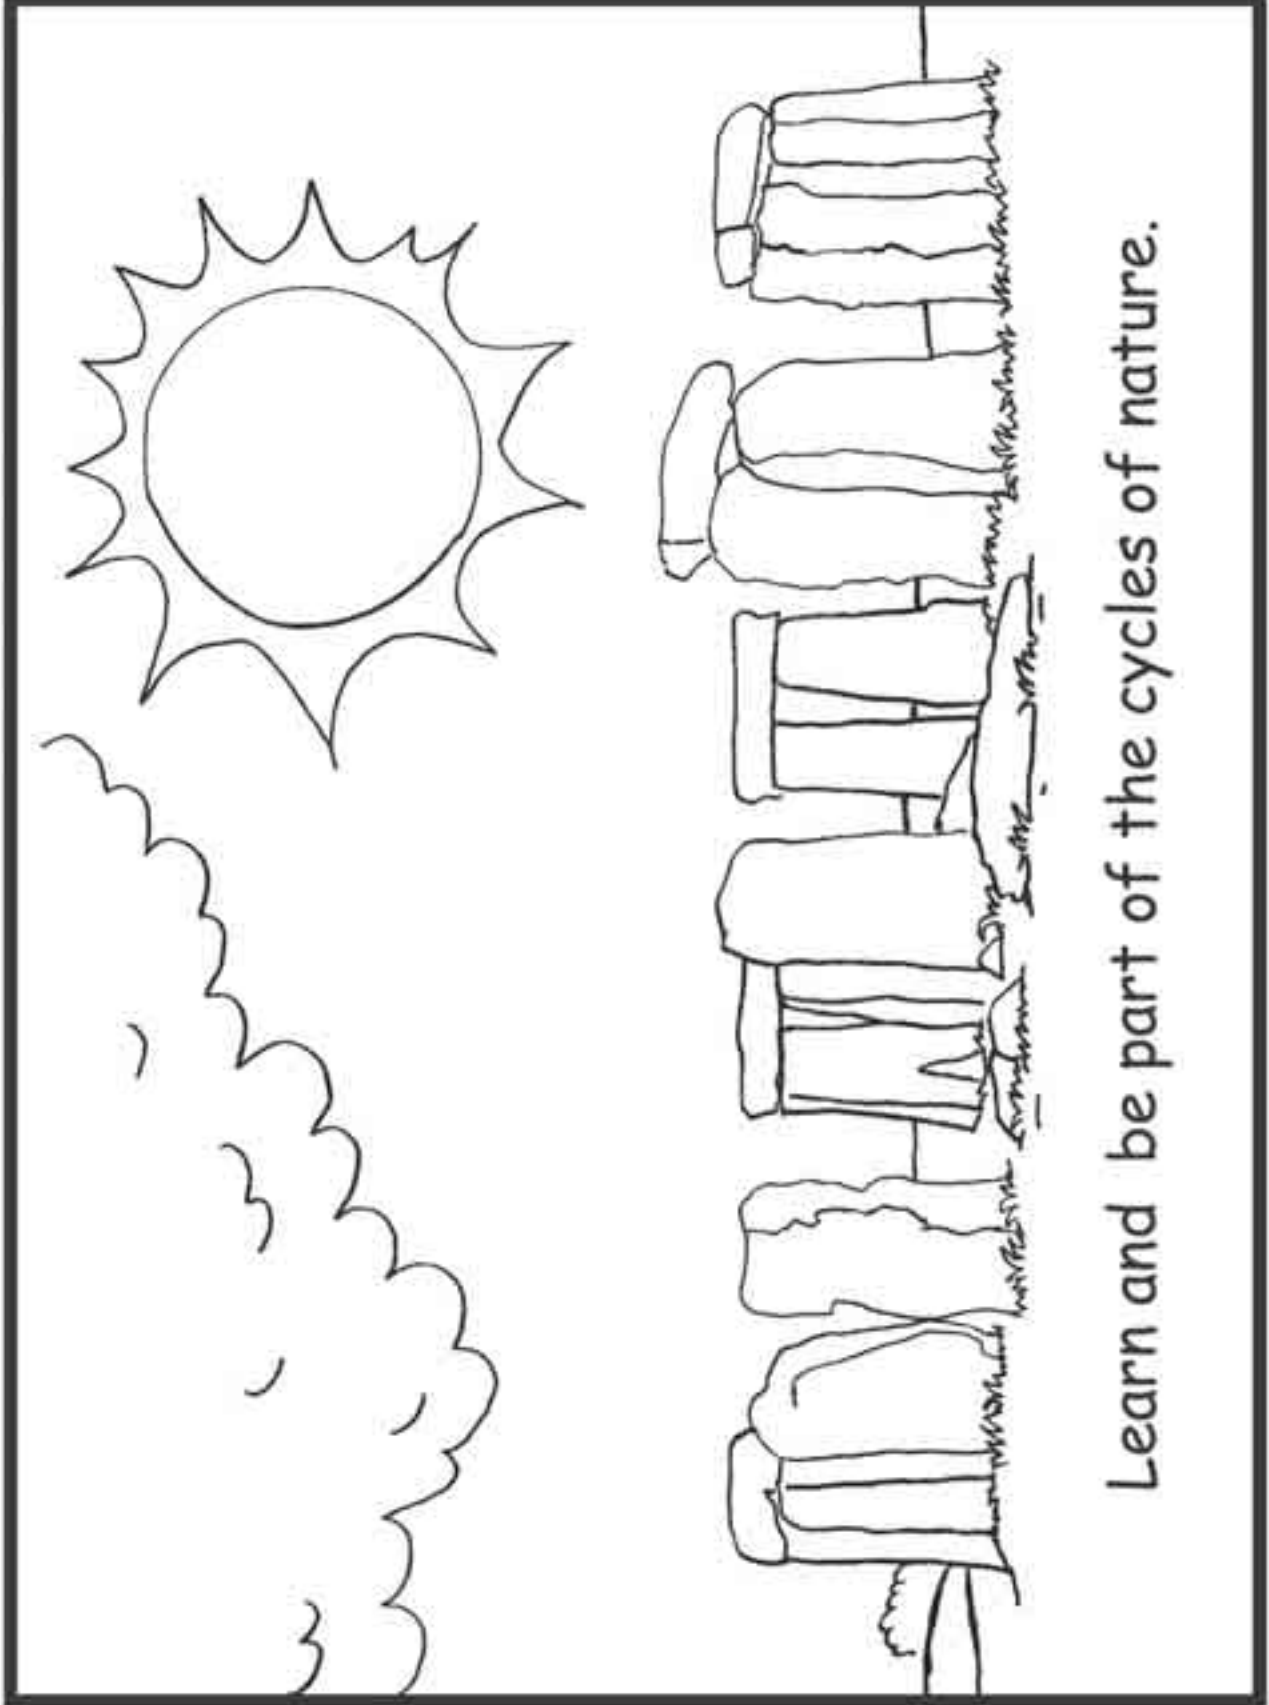

The Summer Solstice is the longest day of the year.

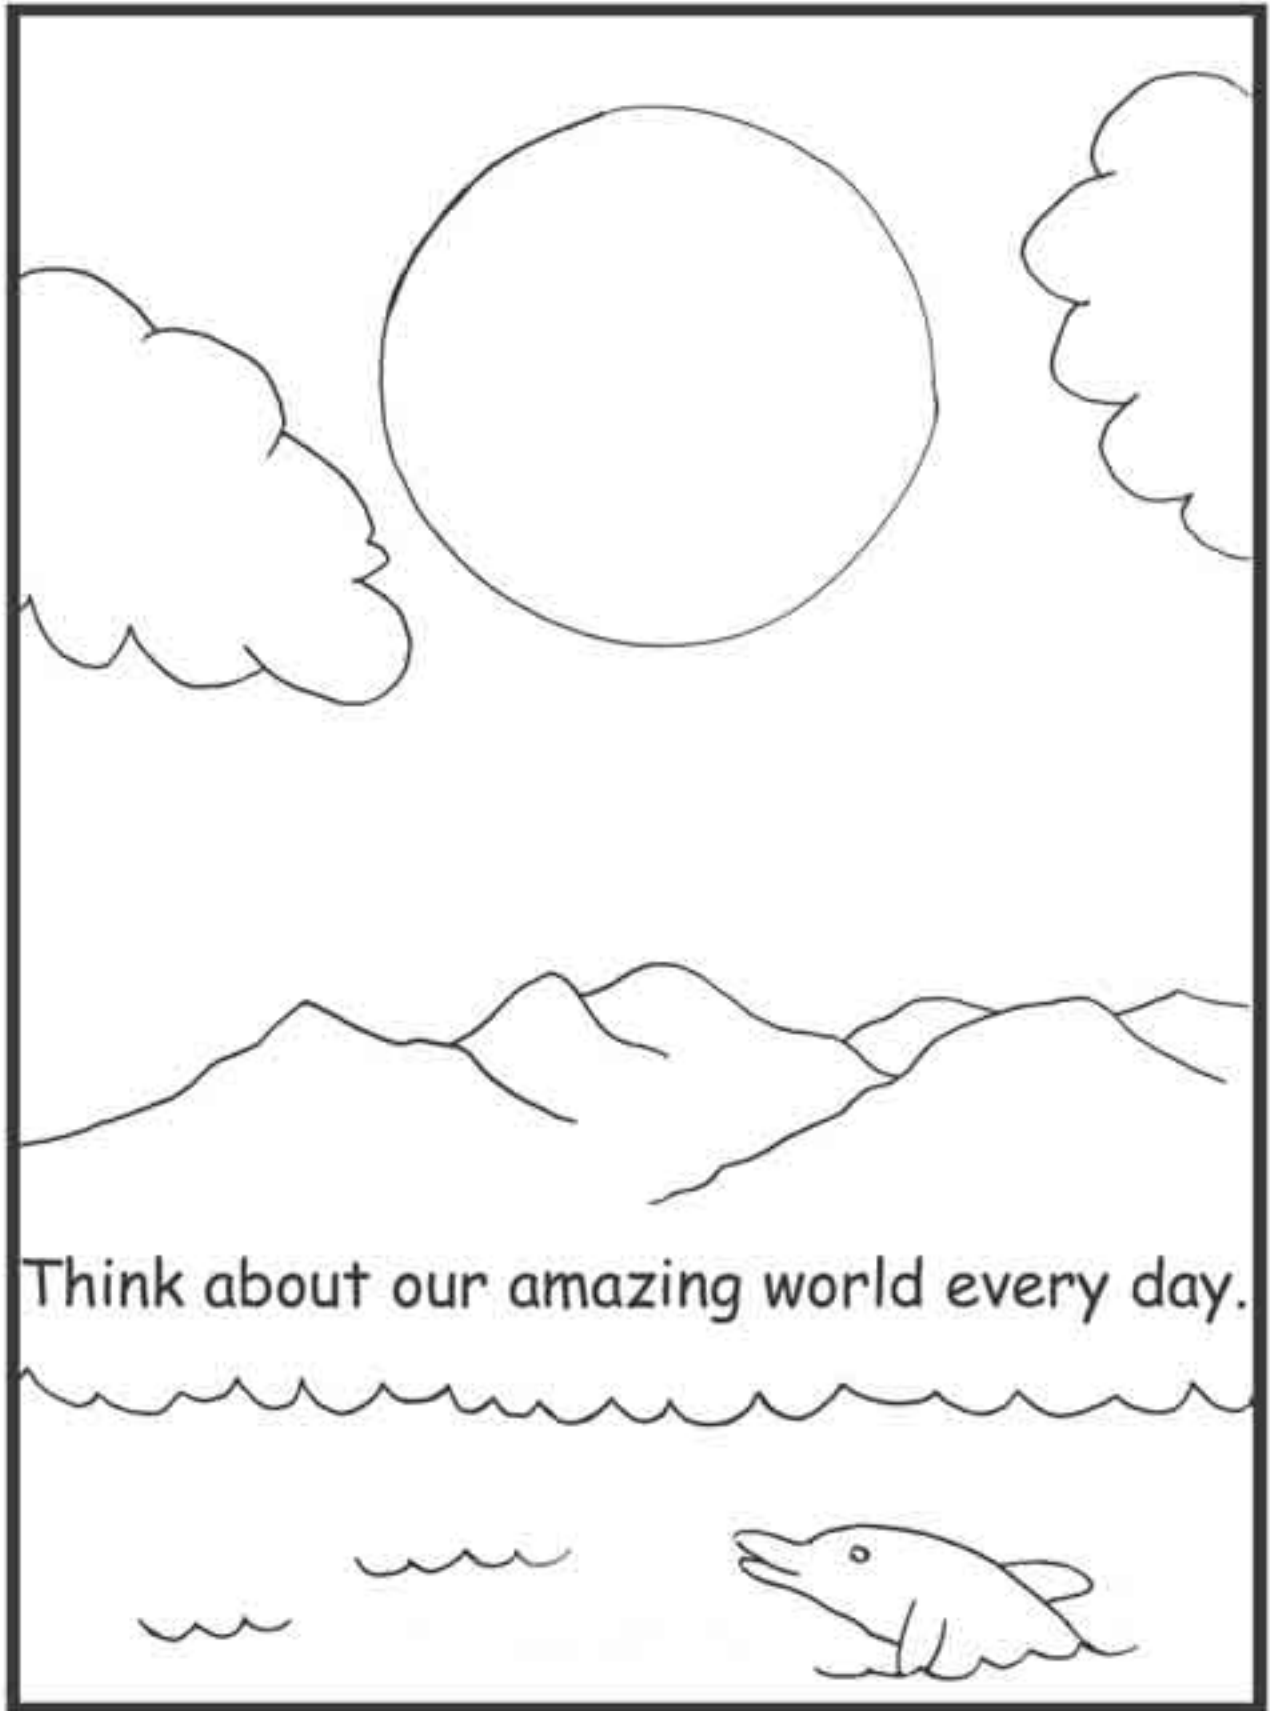

The Winter Solstice is the shortest day of the year.

At Equinox the length of day and night time are the same.

Learn and be part of the cycles of nature.

Think about our amazing world every day.

Being creative is important and fun.

future

present

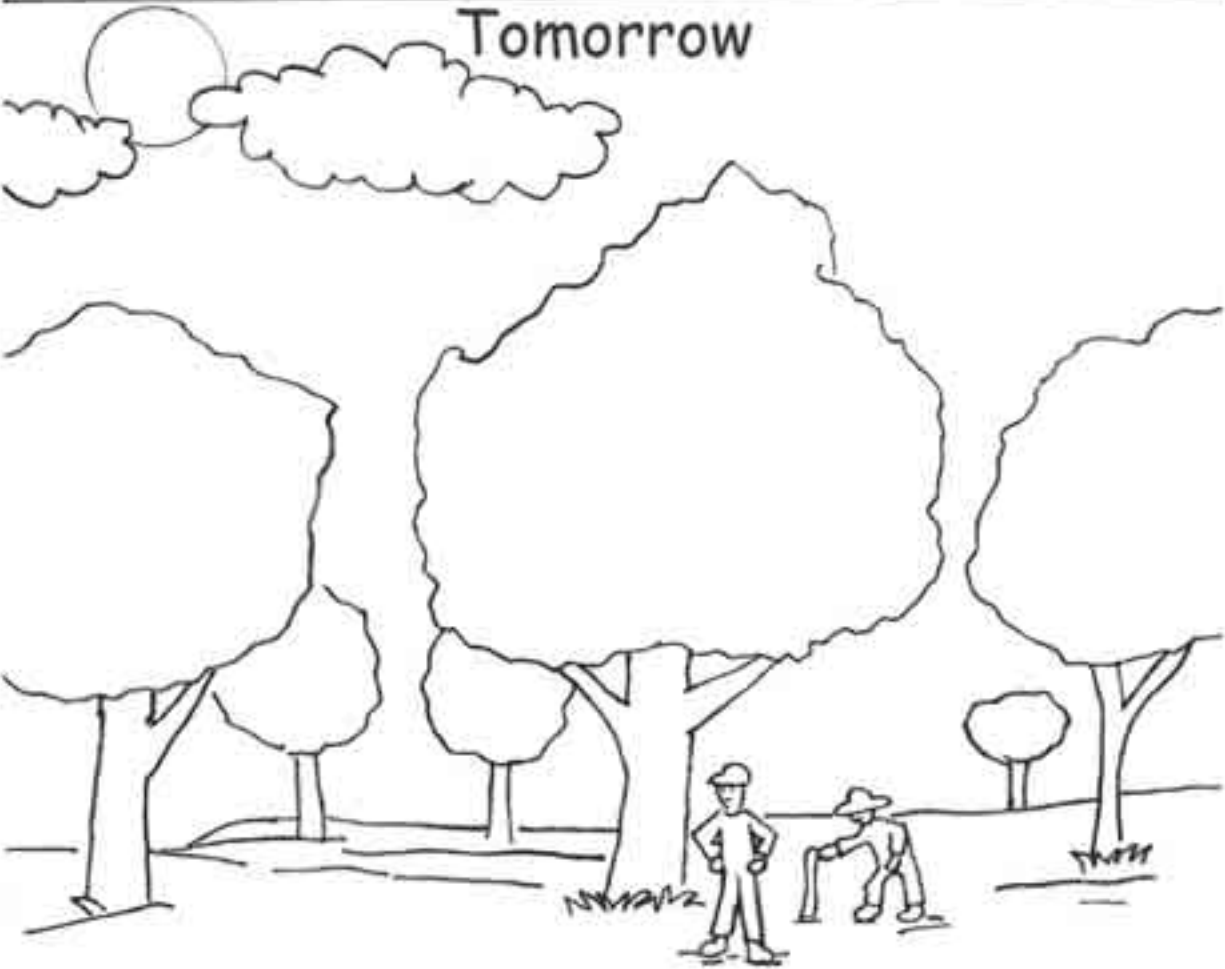

past

Help the course of progress
toward a better future.

Today

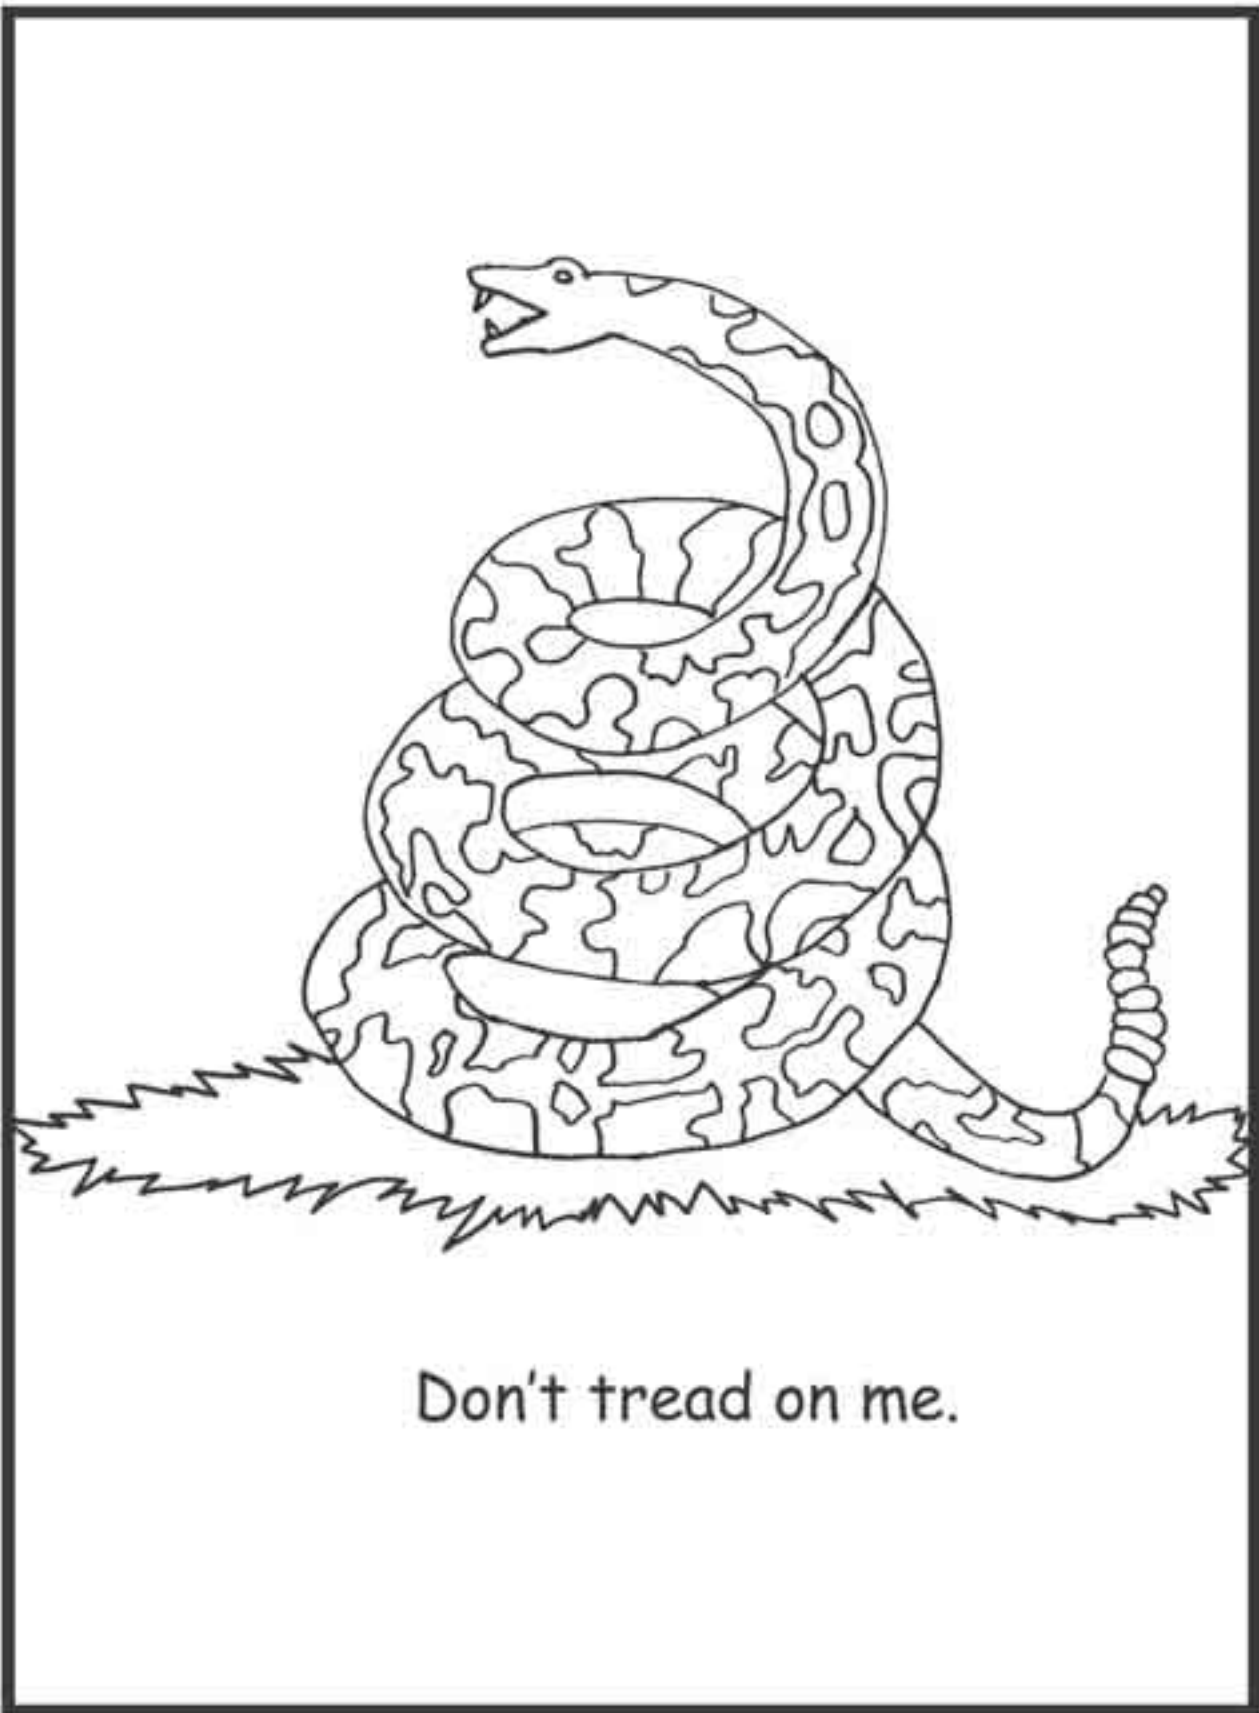

Tomorrow

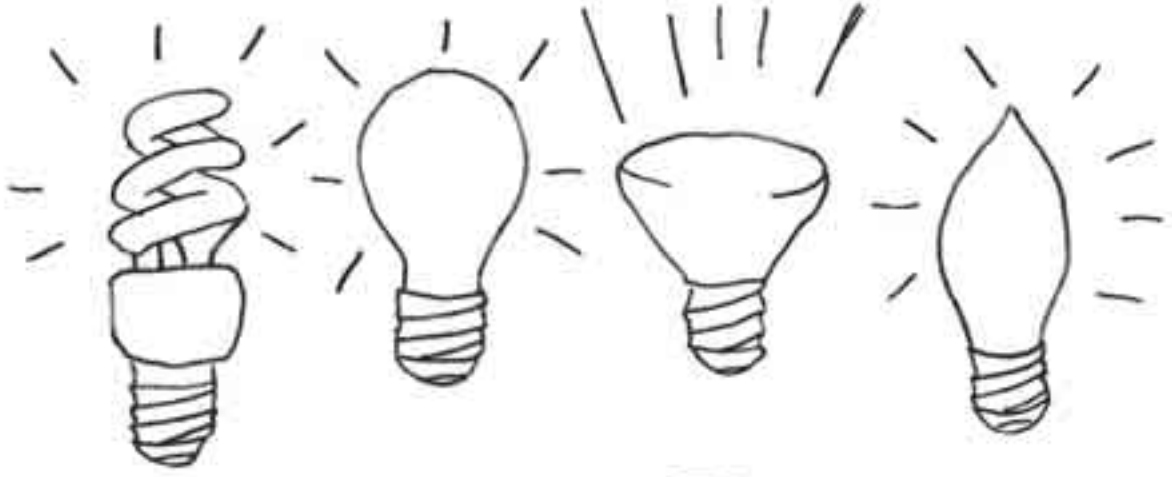

Stand up for what you believe in.

Don't tread on me.

Be open to new ideas.
